STEAM HOSE FOR THE PETROCHEMICAL INDUSTRY

Every application is a critical application in the Petrochemical industry. That's why working with experts that understand your applications to connect you with products that are fit for the application.

Steam hose is a critical application hose and when handled improperly can cause severe injury and equipment damage. Steam hose elastomer construction, end selection, attachment methods, and color coding are all important factors when selecting a product that meets your needs. Our experts can recommend the best steam hose fit for your application; call us we are here to help.

STEAM HOSE

FOR THE PETROCHEMICAL INDUSTRY

Rubberworx™ EPDM steam hose is built to meet the most rugged and demanding needs of the Petrochemical industry. This kink resistant steam hose is designed to last in the most critical applications. High grade EPDM build to last in heat and resist tube popcorning. Meets ARPM standards for steam hose safety with a maximum operating pressure of 250 PSI with a 10:1 burst ratio.

Don't leave your steam hose selection to chance, Rubberworx™ steam hose will keep you up and running in the toughest of applications. Come to the industry experts for the steam hose needs this winter season.

STEAM HOSE ASSEMBLIES READY TO GO

Rubberworx™ EPDM Steam Hose

- Tube: EPDM
- Reinforcement: braided steel reinforcement
- Cover: Black EPDM
- Temperature: -40°F to 450°F
- Branding: Rubberworx™ 3/4" EPDM STEAM 250 PSI
- Packaging Specifications: 50' Sections
- Options: Crimped Or Clamp
 - NPT Pipe
 - Ground Joint

EPDM Steam Hose

Applications Including:

- Pipe and Valve Heating
- Equipment Cleaning
- Heating hydrocarbon vessels
- Process fluid heat exchangers
- Hose Cleaning
